

UI Design and Flow

The major UI's are: Each of these UI's have been explained below in detail separately.

UI – 1) Welcome / login page

UI – 2) Registration of employer

UI – 2.1) Opening Page of Employer

UI – 2.2) Requirements page of the employer

UI – 2.3) List of Employee

UI – 2.4) Employer to Offer for Jobs

UI – 3) Registration of employee

UI – 3.1) Opening Page of Employee

UI – 3.2) Employee to Apply for Jobs

UI – 4) Notifications for Employer/ Employee

There might be some more extra pages like:

1) Forgot password page

2) OTP verification page

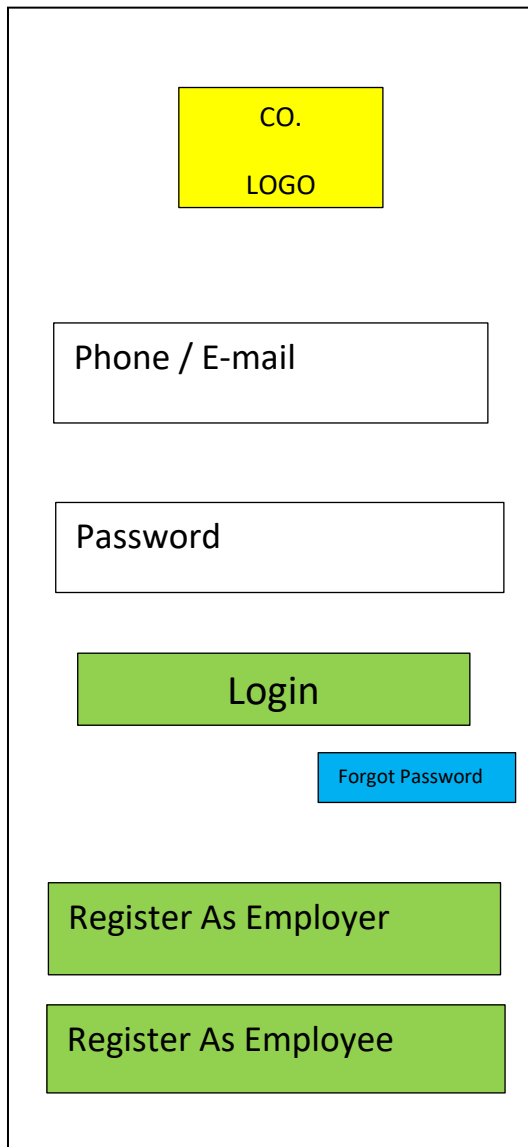

3) Edit profile page

4) May be some settings and customization page.

These pages are general and don't have specific design and hence, have not been described they will be added as per the requirements later on.

UI – INTERFACE 1

Login or Welcome page

The UI mockup is contained within a black rectangular border. At the top center is a yellow rectangle with the text 'CO.' above 'LOGO'. Below this is a white rectangular input field with the placeholder text 'Phone / E-mail'. Underneath is another white rectangular input field with the placeholder text 'Password'. Below the password field is a green rectangular button labeled 'Login'. To the right of the 'Login' button is a smaller blue rectangular button labeled 'Forgot Password'. Below the 'Login' button is a green rectangular button labeled 'Register As Employer'. At the bottom is a green rectangular button labeled 'Register As Employee'.

Description

This is the first page where already registered customers can login and new customers will be redirected to the registration page accordingly.

Here we should verify the Phone number and password with database to permit the login and we should also include forgot password.

Elements in the UI

- 1) **Login**– This will verify with the database of all the registered members to allow the login.
- 2) **Forgot Password** – This feature should be allowed for re setting the password.
- 3) **Register as Employer / Employee** – Will be re directed to registration form.

UI – INTERFACE 2 AND 3

Registration of employer / employee

<div>Co. Logo</div>	
<div>Register as Employee</div>	
Name	
Phone	
Aadhaar No.	
Address 1	
Address 2	
City	
State	
Upload	
<div>Submit</div>	

Description

In this page the customer has to fill the details and make there profile which will be saved in the database for later use.

Phone number verification also should be done using otp.

NOTE – Most of this data should be encrypted and secure, So that the customers personal details like Phone number, e-mail id, password is safe.

Elements in the UI

- 1) **Registration Form** – This will ask the details required to make a profile as employer /employee.
- 2) **Upload** – The customers will be asked to attach documents of qualification, certification, verification etc.
- 3) **Submit** – Submit the profile which will be saved in the database.

UI – INTERFACE 2.1

OPENING PAGE OF EMPLOYER

Description:

This is the opening page of the employer after the login. In this page the EMPLOYER'S details are shown along with the Hotel's description. Also a message indicating that the employer is registered in the app.

In this page, the employer can post a job by clicking on the "post job" button which will redirect the employer to the User Interface - 2.2, where the employer can search the employee according to his needs of qualification.

Also, according to the will of the employer, he/she can sign out from the app.

Elements in the UI

1. **Details of the employer** – This will display the details viz. The Display Picture and User Identity.
2. **Details of the Hotel** – The Description of the hotel will be showcased here.
3. **Post Job** – The employer can tap on the button to redirect him/her to another link wherein the filters can be made accordingly.
4. **Sign out** – The employer can sign out of the app

UI – INTERFACE 2.2

“REQUIREMENTS” PAGE OF EMPLOYER

DP NAME + USN

Please fill in the current requirement of the employees

Requirement 1 (eg. Chef)

Requirement 2 (eg. 2 years)

Requirement 3

Requirement 4

Post Job

Description :

This page is redirected from the Profile page. This page is to fill the type of requirements of the Employee to be employed. Wherein the Display Picture and the User Identity of the Employer is being displayed at the top.

First requirement may be of the position of Placement. Eg. Chef, Cleaner, delivery boy, etc.

Second requirement may be the minimum time of experience the employee must have in this field.

Later the further requirements are a requisite of the App Owner.

Also there is a “Post Job” button which redirects him to User Interface 2.3.

NOTE: These job posts will be saved in the database and seen by the employees to apply if eligible. There is no need of encryption on this data.

Elements in the UI

- 1) **Details of the employer** – This will display the details viz. The Display Picture and User Identity.
- 2) **Requirement List** – The type of employee can be sorted out by the employer from the many who are applying for the post published.
- 3) **Post Job** – The employer can tap on the button to redirect him/her to another link wherein it shows the employees who are willing to be posted.

UI – INTERFACE 2.3

LIST OF EMPLOYEES

DP NAME + USN

These are the list of people who have applied for the Job

SEARCH → FILTER

NAME1
'Nx' YEARS OF EXPERIENCE
FILTERED ACCORDING TO SEARCH
OFFER

NAME2
'Ny' YEARS OF EXPERIENCE
FILTERED ACCORDING TO SEARCH
OFFER

NAME3
'Nz' YEARS OF EXPERIENCE
FILTERED ACCORDING TO SEARCH
OFFER

Description:

This page is redirected from the Requirements page. This page is to select the employee on the basis of type of requirements of the Employee to be employed. Wherein the Display Picture and the User Identity of the Employer is being displayed at the top.

This is in the descending order of the most preferable employee on the basis of the search.

The details of the employee and the display picture will be posted and by pressing the “offer” button, it is redirected to UI 2.4.

Elements in the UI

- 1) **Details of the employer** – This will display the details wiz. The Display Picture and User Identity.
- 2) **Employee List** – The list of employees who had applied for the post are being shown.
- 3) **Offer** – The employer can tap on the “offer” button to redirect him/her to another link wherein it shows the offer letter to the employee wiz. UI 2.4.

UI – INTERFACE 2.4

EMPLOYER TO OFFER FOR JOB

DP

NAME + USN

Congratulations,

You can be a part of this hotel with the summoned designation. We are impressed with your profile and looking forward to meet you.

Please go through the benefits and stay in touch as you might get a call regarding the same in the coming days

Regards,

The manager,

Hotel Name

Benefits of joining the company

 Benefits.pdf

Description:

This is simple page where the employee is offered the offer letter from the employees. This is left to the manager/owner of the respective hotels to add or minimise descriptions.

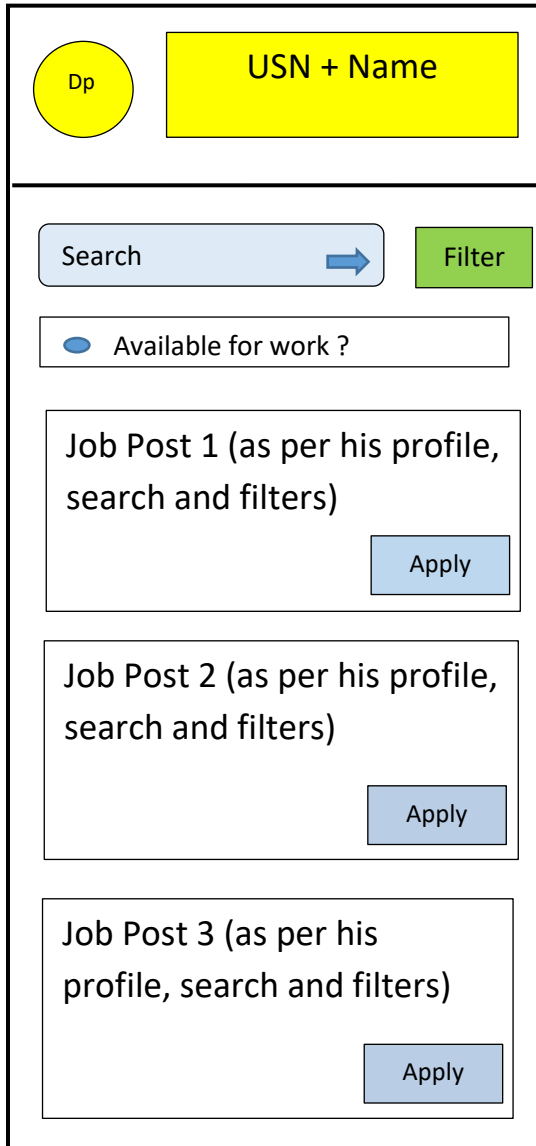

The employee may or may not accept the designated letter.

Elements in the UI

- 1) **Details of the employer** – This will display the details wiz. The Display Picture and User Identity.
- 2) **Offer letter** – The offer letter is offered to the employee.
- 3) **Attachments** – There might be any attachments regarding the same.

UI – INTERFACE 3.1

Opening Page of Employee

The mockup shows a user interface for an employee's opening page. At the top, there is a yellow header bar containing a circular profile picture placeholder labeled 'Dp' and a yellow rectangular box labeled 'USN + Name'. Below the header, there is a search and filter section with a light blue 'Search' button with a right-pointing arrow and a green 'Filter' button. Underneath is a checkbox labeled 'Available for work ?' with a blue dot. The main content area displays three job post cards. Each card has a title 'Job Post 1 (as per his profile, search and filters)', 'Job Post 2 (as per his profile, search and filters)', and 'Job Post 3 (as per his profile, search and filters)' respectively, followed by a blue 'Apply' button.

Description

This is the first page of the employee after login. Here he can find all the available jobs near him and according to his profile, search and filters.

The employee gets an option to if he is available for work or not. He will be shown to the employer only if he is available and willing to work right now.

Using the Apply button he can apply for any job he likes and is eligible for.

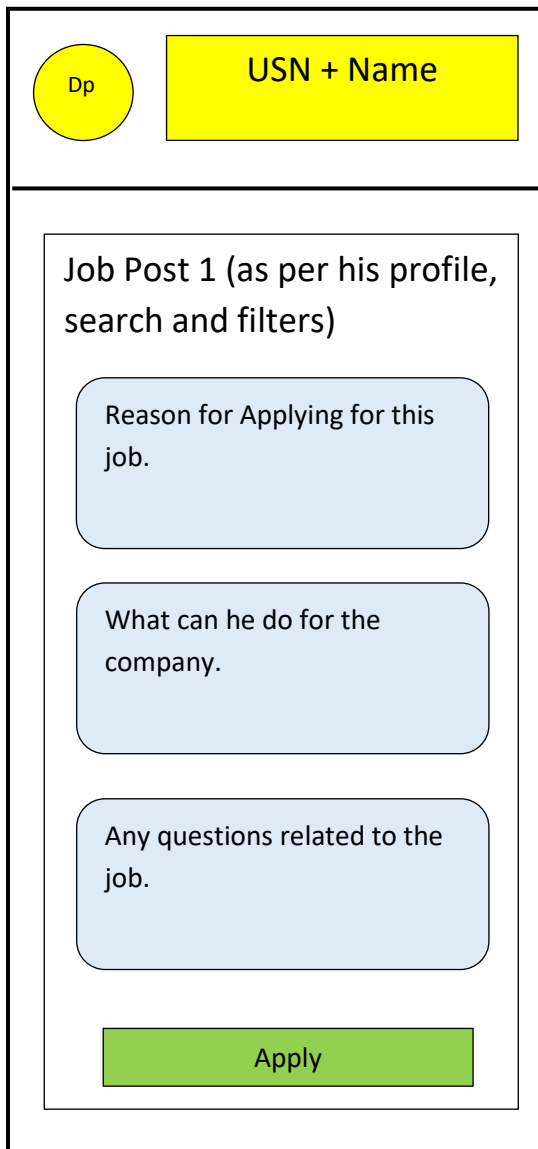

These jobs offers have been posted by the company as per their current requirements.

Elements in the UI

- 1) **Search and Filter** – They can customize and filter out for the specific job they are looking for.
- 2) **Available for work** – The employee will be shown to the employer only if he is available at that time.
- 3) **Apply** – Will be re directed to page 3.2 where he can apply for the job.

UI – INTERFACE 3.2

Employee to Apply for Jobs

The UI mockup is a vertical rectangle with a black border. At the top, there is a header section containing a yellow circle with the text 'Dp' and a yellow rectangle with the text 'USN + Name'. Below the header is a large white rectangle with a black border. Inside this rectangle, at the top, is the text 'Job Post 1 (as per his profile, search and filters)'. Below this text are three light blue rounded rectangles, each containing a question: 'Reason for Applying for this job.', 'What can he do for the company.', and 'Any questions related to the job.'. At the bottom of this white rectangle is a green rectangle with the text 'Apply'.

Description

This is a simple page for employee to apply for any job he likes and is eligible for.

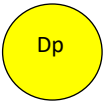

He will have to fill in some details and common questions asked by that job and apply it.

Elements in the UI

- 1) **Apply** – The application will be submitted and this information will be added to his profile.
- 2) **Questions** - The questions asked by jobs.

UI – INTERFACE 4

Notifications for Employer/ Employee

	USN + Name
<div>Notifications</div> <div>Congratulation, you can be the part of this hotel with summoned designation.....</div> <div>Congratulation, you have applied for 5 jobs..</div> <div>Congratulation, you have successfully applied for the xyz job. All the best!!</div>	

Description

This is the notification page of the customer. Here they will get all the notifications regarding the offers they got and also the jobs they applied. Here he can accept or reject the offer by reading the complete details.

Other general notification will also be given in this page.

Elements in the UI

- 1) **Notifications** – All the notifications will be received in this page.
